Wrap Around Glitch

FEW OTHER THINGS THAT CAN GET YOU STARTED

- Documentation
- Testing a bug and reporting with verifications
- Sample code for bugs
- Provide your work arounds / hacks
- Refactor code for understandability / readability

*** DEMO ***

MY LEARNINGS

- Code for a problem not just an idea
- Clean code
- Design process for coding and talking out solutions
- Getting in touch with the community
- Understanding different use cases for a single tiny piece of code
- Accepting mistakes and learn to roll back or move forward on decisions
- Git and commit messages
